

Main Display

This is where I will keep a indepth detailed look at my main display, with all the neat builds currently finished.

I will be going from the bottom up in this blog, so I can save the best for last!!

Bottom Shelf

The bottom shelf contains all high grades from all sorts of different eras and shows. Most of them I found neat and wanted them.

From back left to front right:

- HG Custom Gelgoog
- HG Guncannon

- HG Left Ball Pod
- HG Requiem Zaku II
- HG Requiem Gundam
- HG Right Ball Pod

Second Shelf

The second shelf is currently dedicated to the series "The Witch from Mercury" and since I only have two models from that series, its fairly empty.
