

Individual Gunpla

This book is dedicated to all the gunpla I have built and the pictures I have taken for them (plus maybe some links to posts on social media).

Each entry will have a short write up about the set itself, and how I would rank it depending on its “build ability”).

Universal Century

The Universal Century (UC) is around the events of the one year war to which the original series took place.

Some of these models are very old, and their age shows as the technology Bandai used wasn't as refined as is today.
